

Flowchart of Necessary Notifications
when You Build Structures in the Quasi-urban Planning and Scenic District.

In the case that you construct and/or repair structures in the quasi-urban planning and scenic district.

*1 In the case your land is larger than 3,000㎡, you have to apply within the acts of development. Therefore you should consult with the Urban-planning section.
 *2 You can submit notification of 'Ordinance and application of Landscape Act at same opportunity.
 *3 Repair and remodeling means reproofing and re-covering walls.
 *4 Color alteration means repainting roofs and walls.
 *5 Other laws may be applicable in your situation (for example: Agricultural Land Act). You must clear these before you commence construction. At the construction site you have to exhibit placards of "Confirmed by the Building Standards Law" and "Authorized by the Landscape Act".
 *6 If you change plans of the permitted structures, you will have to re-submit alteration to the same notification.
 *7 These regulation of notification have penal provisions.
 *8 If you build prefabricated (demountable) structures even for a short period, you have to submit these notification.
